Go [a]therefore and make disciples of all the nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, teaching them to observe all things that I have commanded you; and lo, I am with you always, even to the end of the age." # ABOUT THE LOCAL MINISTRY

When in Egypt, the travelers will be serving with a local organization called The Shepherd and Mother of Light (SML) - a not-for-profit organization that serves the extremely poor and needy Christians of Egypt. Their service began in Australia in late 2011 with an objective to raise funds that can support the very deprived in Egypt, serving under the direct supervision of His Holiness Pope Tawadros II. SML was first established in Egypt in 1994.

The service and donations enable the renovation and construction of houses where the very basics are missing. We are referring to houses with no roofing, no water, no electricity, no bathrooms, and no furniture - the essential needs to survive. Through the grace of God, SML is able to help these people through our social services and housing programs.

All contributions and service for this ministry open the door for Jesus to enter their lives, hearts, and homes through their spiritual development programs, spiritual days, summer retreats, and visits to each family.

As a member, you play an essential role in the survival and development of many families. Thank you for sharing this responsibility and fulfilling the vision and mission of creating a better life for the neediest.

# COUNTRY OVERVIEW

For many, the scope of Egypt's history is difficult to comprehend. Its history covers some five thousand years, and encompasses the origin of civilization, the rise of the Greeks and Romans, the establishment of the Jewish, Christian, and Islamic religions, the colonial era when first France and then the English ruled the country, and finally, a return to independence. Egypt has played an important role through all of these eras, and today one can find monuments that evidence Egypt's role in most of the world's historic events, from the beginning of mankind until the present. More and more, we are not only learning about the history of mankind in Egypt, but also about his prehistory, the way that he migrated and finally began to organize communities that eventually led to a civilized world.

In Egypt, we find the earliest detailed records of warfare recorded thousands of years ago, but we also find the cemeteries and monuments of the world's last global war, World War II. In Egypt, we find some of the first written words of civilization, but we also find great thinkers and writers through the Greek period, into the Christian era, the archaic Islamic period, and even modern Nobel Literates. In Egypt, we find ancient pyramids and giant columns supporting massive temples, but we can now find these architectural elements spread throughout the world. Here, along with the first monumental buildings made of stone, we also find the first paved roads, the first wines and beer, and even the first peace treaties between organized governments. However, we also find the world's first scientists, doctors, architects, and mathematicians.

Egypt is our window to humanity's distant past and in understanding its history, we find both mankind's greatest glories and achievements, as well as his often repeated mistakes. We may follow along with the building of empires, only to see them collapse again and again. We find great men and rulers of renowned empires, but we often also see their ultimate demise.

And here, we learn about religion, its evolution, and, as the world grows older, its replacement with newer religions. Yet, the ancient Egyptian religion has never really completely died out. Even today, many Egyptians continue customs, including some aspects of religion, held over from thousands of years ago. In fact, throughout the world, aspects of the ancient Egyptian religion, particularly funerary, continue to affect our modern lives.

We hope you enjoy our efforts to bring Egyptian history and its monuments to your fingertips.

# Mission Tips

## 01 MANAGE YOUR EXPECTATIONS

Manage your expectations. Expect God to do big things, but also remember that a trip doesn't have to be groundbreaking in order to be successful and effective. God can work in small ways, too.

## 02 REST

Your trip will likely include long days that require lots of energy to pour out to others. Make sure you are physically and mentally rested before going into a very busy week. Eat healthy, get a good night's sleep and make sure you get proper spiritual mindset before you leave.

## 03 BE FLEXIBLE

Plans will inevitably change on your trip. Be adaptable and willing to learn. Don't get stuck in your own ways, but be willing to try new things. The only way to grow is to be stretched.

## 04 PRAY

"And this is the confidence that we have toward him, that if we ask anything according to his will he hears us. And if we know that he hears us in whatever we ask, we know that we have the requests that we have asked of him." (1 John 5:14-15)

## 05 READ YOUR BIBLE

Without Christ working in and through us, we are useless. His is the power that changes, so spend time cultivating your relationship with him. Glorify him, commit your plans to him and ask him to prepare you to be used by Him with those you meet on your trip.

## 06 GET OUT OF YOUR COMFORT ZONE

Try something new. Practice doing something out of your comfort zone like eating at an ethnic restaurant or starting conversation with a stranger. Your trip will be full of opportunities for new experiences!

## 07 GET TO KNOW YOUR TEAMMATES

Your relationship with your teammates will determine the atmosphere of your trip. You'll be sharing a lot of experiences and emotions with your group, so get to know your teammates before the trip to build unity and friendship.
